SECTION 3: YOUR PROPOSAL

What do you want to do with the funding, and how will you do it?

We would like to provide free women's self defence classes on a weekly basis and also create a drop-in facility where women can come in and ask for advice regarding their wellbeing ,be it wanting to find healthy activities for themselves, fitness,stretching , self defence and try one-to-one sessions to get the confidence to join bigger groups .

How do you know there is a need for this in Ward 6 / your neighbourhood?

We have just finished a one year pilot programme for women's self defence and we have identified a huge need for this type of classes in the area . We had a lot of interest from local mums of children that are already members of our club . 80% of the enquiries come from women from BME background because having the setting of women only creates the perfect opportunity for attendance.

Where will you do this (neighbourhoods within Ward 6 – we cannot fund work that covers other areas)?

At our studio in Shawlands, City Wall House, 32 Eastwood Avenue , G41 3NS.

What do you hope will happen as a result of this?

We hope to achieve 3 main outcomes: to provide an inclusive atmosphere where women from all backgrounds come together and learn skills to improve their safety and wellbeing ; to remove financial and social barriers by providing a free service to the young girls and women in our community ; to fight isolation and deprivation and promote community involvement, equality and togetherness.

As a result of these regular classes we hope to fight inequality , tackle the financial barriers that stop women from participating in activities .Women will feel safer and healthier. These classes are particularly suited for women from BME background .

How will you know you've achieved the results you wanted?

We will have monitoring in place in the form of initial questionnaires and end of project questionnaires. Also we will gather feedback throughout the project and we will also work together with Evaluate Scotland to make sure we have all the measuring tools in place.

When will the work start and finish (must be no longer than one year)?

November 2019 to November 2020.

Please tell us how you will reflect the two Ward 6 Community Choices themes of tackling poverty and inequality, and equality for BME people.

How will this support people experiencing poverty and inequality? (for example, you could tell us how your idea helps to tackle poverty and inequality, or about efforts will you make to ensure people experiencing this can get involved)

The classes and the one-to-one sessions will be free of charge, ensuring that everyone will be able to attend .

How will this will support local people from BME communities? (for example, you could tell us if this project is aimed at local people from BME communities, or about efforts you will make to ensure local people from BME communities can get involved)

The statistics from the pilot project that we just finished show a staggering 80% participants come from BME background. Their feedback was : we feel included, these classes are for women only , delivered by women , so they suit all women , regardless of religion , social and cultural background.

NEXT STEPS

Your application will go through a shortlisting stage. Further details of how this works are included in the guidance.

If your application is successful at the shortlisting stage, it will go through to the final stage, which is a public vote.

The vote will take place at a decision event where Ward 6 community members will decide which of the proposals receives funding. Online voting will be available for people who can't make it to the event.

All organisations taking part will be expected to share publicity materials / social media posts (if they have social media) about the event and online vote to the people they work with and the wider public. The more people attending, the more votes organisations can receive, so it's important that everyone makes an effort to share this widely. Please only share official materials and messages from Ward 6 Community Choices about this, to avoid any potential confusion.

Your organisation will need to send at least one person to the decision event to explain your proposal and how it will benefit the Ward 6 community. If you have more than one application, each one that makes it to the decision event will need to be explained separately.

We will give full information on what you need to do at the decision event, the date, time and venue once shortlisting is completed. We need to know how many proposals are going forward before planning this, so there is enough time and space for all of the proposals to be heard.

We will make sure that the decision event is easy to take part in, fair and enjoyable for everyone.
